

17 December 1969

OFFICE OF PERSONNEL MEMORANDUM NO. 20-22-6

SUBJECT: Random Selection for Military Service

1. The purpose of this Memorandum is to explain the procedures which will apply under the new random selection system for induction starting with Calendar Year 1970. In summary, the new system established a method of selecting draftees from each year's pool of I-A's, relying on chance from a lottery for the order of call rather than on selection by the local boards. Local boards still have the authority and responsibility to register individuals upon reaching age 18, to call them for examinations, and to rule whether a registrant is to be deferred, exempted, or classified I-A at any given time. There is no change in the Agency's military deferment policy as outlined [] 11 September 1969.

2. By Executive Order No. 11497, dated 26 November 1969, the President amended the Selective Service Regulations to prescribe a random selection system for induction commencing in January 1970. Registrants will be selected and ordered to report for induction in the following categories and in the order indicated.

Priority 1 - Delinquents who have attained the age of 19, the oldest being selected first.

Priority 2 - Volunteers under age 26, in the order in which they have volunteered.

Priority 3 - Nonvolunteers in Calendar Year Selection Groups in the order of their random selection sequence numbers which have been determined by lottery as explained in paragraph 3 below.

Priority 4 - Nonvolunteers who attain the age of 19 years during the Calendar Year, with the oldest being selected first.

ADMINISTRATIVE - INTERNAL USE ONLY

Priority 5 - Nonvolunteers who have attained the age of 26, with the youngest being selected first.

Priority 6 - Nonvolunteers between the age of 18 years and 6 months and 19.

3. The order of call of nonvolunteers within Calendar Year Selection Groups (Priority 3) is determined by randomly drawing 366 days to represent birthdays (month and day only) to establish line numbers and then by randomly drawing the 26 letters of the alphabet. These letters, equating to the first letter of the registrant's last name, will be used to determine the order of selection within a given line number.

a. Calendar Year 1970. The drawing held on 1 December 1969, the results of which are shown on the attachment, established the random selection sequence numbers for the "1970 Selection Group." This group consists of nonvolunteers classified I-A who were born on or after 1 January 1944 and on or before 31 December 1950. Members of the "1970 Selection Group" on 31 December 1970, whose random sequence numbers have not been reached by that date, will be assigned to the priority group which is immediately below the "First Priority Selection Group" for 1971.

b. 1971 and Later Years. For Calendar Year 1971, and for each subsequent year, a new "First Priority Selection Group" will be established by lottery. This group will consist of nonvolunteers in Class I-A who prior to 1 January of each such Calendar Year have reached age 19 and of nonvolunteers who have reached age 19 but not age 26 and who during that year are classified I-A following expiration of a deferment or exemption. Members of each such "First Priority Selection Group" on 31 December of the respective Calendar Year whose random sequence numbers are not reached by that date will be assigned to successively lower priority groups so that those who were in the "1970 Selection Group" and who move into a lower group at the end of 1970 will be in the lowest such group, those who were in the 1971 "First Priority Selection Group" will be in the next to the lowest such group, and so forth.

4. The random sequence number established for any registrant applies to him so long as he remains subject to draft. For example,

a registrant who holds a deferment of some kind throughout 1970, for college or any other reason, will become draftable in a later year when his deferment expires unless he has reached age 26 in the meantime. During that year, his draft priority will be the same as that set by the drawing held on 1 December 1969.

5. It is conceivable that a registrant classified I-A whose random sequence number has been reached may have his induction delayed pending the outcome of an appeal or other pending action. If not reclassified, such registrant will be ordered to report for induction when the delay is concluded, even if the year in which he otherwise would have been ordered to report has ended and even if (in the case of extended liability) he has reached age 26.

6. Questions on this subject may be referred

A DRAFTEE'S CALENDAR FOR 1970

Under the lottery-draft, youths who are 19 through 25 years of age as of Dec. 31, 1969, and are not deferred, will be subject to call in the sequence established by the

December 1 lottery in Washington, D. C. By the luck of that drawing, September 14 became No. 1 in the draft-priority list for 1970. The complete calendar for the year—

WHEN YOUTHS HAVE THE SAME NUMBER . . .

A local board with two or more men having the same birth date must call them in the order set by a drawing of the alphabet, which followed the birthday lottery. By the luck

of that draw on December 1, men whose last names begin with "J" became No. 1, within each birth-date group. The entire sequence for 1970:

First Letter Of Last Name	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
Priority Number	4	12	7
